Sun Named Best Weekly in State; Only Paper to Win Three First Place Awards

General Excellence, Top Edit Page Among Honors

The Sun is the only newspaper, daily or weekly, in California to be presented with three first place awards for 1958 by the California Newspaper Publishers Association.

Presented to The Sun Saturday at the annual Awards Breakfast at the Sheraton-Palace Hotel in San Francisco were awards for:

1. First place, "Best Weekly in California—General Excellence."

2. First place, Best Editorial Page, for weeklies throughout the state.

3. First place for Best Women's Interests Coverage for weeklies throughout the state.

4. Second place for Best Newspaper Promotion-Community Relations for weekly newspapers throughout the state.

THE AWARDS WERE presented by Edmund "Pat" Brown, Governor of the State of California.

This makes the ninth consecutive year that The Sun has won either state or national prizes, or both.

The award for "General Excellence" was received by Herman Silverman, editor and publisher of The Sun.

In considering a newspaper for this award, the highest honor among the annual awards presented by the state publishers association, the judges take into consideration such factors as makeup of the pages, sports, editorial and society coverage, front page appearance, news coverage, typography, press work, news-picture coverage, etc.

THE AWARD FOR "Best Women's Interests Coverage" was received by Mrs. Silverman, co-publisher of The Sun. Awards in this category are presented for sections of the papers of particular interest to women, such as society and club news and social columns.

This includes the use and arrangement of society and club pictures as well as articles.

The award for the "Best Editorial Page" was received by Dick Osborn, associate editor. Taken into consideration are editorials, subject matter and editorial policy, use of editorial cartoons and appropriateness of material found on the editorial page or pages, and handling of columns and letters to the editor.

The "Best Newspaper Promotion-Community Relations" award is judged on the ability of a newspaper to "explain" itself to the community which it serves. It includes such factors as community service through candidates nights, recognition of outstanding community members, and general public service.

THE ENTRY FOR THE editorial page and the promotion-community relations citations were made in the name of The Walnut Creek Sun. The entry for General Excellence and Best Women's Interests Coverage was made in the name of The Orinda Sun.

Silverman, who was also elected a director of the California Newspaper Publishers Association for the current year, paid tribute to the staff members of The Sun, pointing out that "without the consistent effort on the part of our staff, both full and part-time, these awards would not have been possible.

"The Sun staff thanks its readers and advertisers for their support which made it possible for The Sun to win these awards."

The only other winner from this area in Contra Costa County was the Concord Transcript which received a second place award for general excellence in the daily newspaper classification, and a second place award for Women's Interests Coverage in the same classification.

This makes a total of 18 state and national awards that The Sun has received since 1951.

GENERAL EXCELLENCE—the best weekly newspaper in California. That is the award being presented to Sun Publisher Herman Silverman, right, by Governor Edmund "Pat" Brown. This is the top award a newspaper can win.

MRS. SILVERMAN, co-publisher, receives the award for Best Women's Interests Coverage. Awards were made at California Newspaper Publishers Association awards breakfast Saturday at the Sheraton-Palace Hotel in San Francisco.

BEST EDITORIAL PAGE award is received by Associate Editor Dick Osborn. The Sun was the only newspaper in California to receive three first place awards. Another award for Newspaper Promotion-Community Relations was received. —UPI photos

High School To Be 'Seven Periods'

THE SWIMMING WILL BE FINE—when the Miramonte High School Community Pool is built. These student leaders and committee members are listening to details on the construction of the pool as explained by President Mike Wilmar, left. Listening are, left to right, Dianne Traverso, Karin Eklund, Tore Lindholm and Ron Brown.

College Preparatory Students Get Break

Acalanes High School District trustees this week approved a change from a six to seven period day starting in 1960.

Trustees said that the seven period day "would enable the schools to do a better educational job, by allowing greater choice for college preparatory students to take electives. Typing, public speaking, music, industrial arts and crafts, and home economics were listed among the courses that the tighter six period day now excludes from the average college preparatory student's schedule.

IN ADDITION to providing flexibility and allowing students to take an expanded program, trustees also explained that the new seven period schedule would allow greater use of school facilities, especially in science labs, school library and industrial shops.

Trustees noted that the seven period day was strongly recommended in Conant's recent report on the "comprehensive" high school. Conant stated that the "six period day is too rigid and prevents the talented pupil from taking a full academic program as well as useful electives."

DISTRICT Superintendent Neil M. Parsons observed that the tect's plans for a Miramonte High "seven period day is being discussed by other districts in the county and there is a trend in that direction."

Trustees directed the Superintendent and his staff to work out the details for next year.

In other actions, trustees:

Approved evaluation studies of the total school program at Miramonte and Acalanes High Schools, similar to the evaluation now being conducted at Las Lomas High.

Approved a contract with the County Schools office providing a speech therapist for the district one day a week, where such service has been given a half day per week.

Examined preliminary architectural drawings for the proposed swimming pool for which the district has agreed to pay half the approximate cost of $50,000, if a current community drive can come up with the rest.

Moved to purchase 90-day U. S. Treasury Notes with district funds in the county treasurer's office so that these funds may earn $800 to $1000 before the money, which is available, is used for bond construction at Del Valle High being built in Tice Valley. The interest earned will be applied to the retirement of the bonds when they are sold.

Say Yes to Heart Sunday Volunteers!

Heart Sunday volunteers will be ringing doorbells on Sunday between 1 and 3 p.m. "to give every resident a personal opportunity to help his heart," say leaders.

Latest count by Chester Bekins, county Heart Fund chairman, indicated there will be nearly 6500 women in the county on march.

Each will wear a square identification badge and will carry official buff-colored envelopes in which contributors may seal their checks, bills or coins.

Where the volunteer finds no one at home, she will leave a pre-addressed mail-in envelope in which a contribution may be sent conveniently to Heart Fund headquarters during the following week.

"The slogan 'Give for every heart in your family' is a most appropriate one," Bekins said, "when you consider that 48 per cent of all deaths in the county are the result of heart disease.

"Also, it is estimated that there are approximately 80,000 persons in Contra Costa County who are cardiacs, or heart disease sufferers."

The chairman pointed out that many of the volunteers who will call their neighbors have a special personal interest in the outcome of the effort to raise $60,000 for the Contra Costa County Heart Association for the coming year.

Local Heart Sunday chairmen include Mesdames Wesley J. Smith, Orinda; Edward Winthers, Moraga; Harold Robinson, Lafayette; Theodore N. Crellin, C. C. Willert and William C. Claraty, Walnut Creek; John Bernavich and James Christenson, Concord; Mesdames Boyd Olney Jr., Pleasant Hill; Robert Quigley, Danville; Marvin Epstein, Alamo.

Enforcement of 'Public' Obstacle Removal Asked

"Removal of fences, shrubs and other obstacles that hinder use of the right of way by pedestrians" may become an active county program, guided by various parents' groups, school officials and the County Department of Public Works.

Mark L. Kermit, county traffic engineer, and member of a special committee appointed by the Board of Supervisors, has distributed a circular directed to improvement clubs and parents groups.

It recommends that a survey of "encroachments" on the public rights of way be made by those groups, with the aid of the County Department.

IT SUGGESTS that the parents' groups should then tonow up the survey with a request directed to each offending property owner that he remove the encroachment.

It said, "In cases on non-compliance, which experience shows will be only about 10 per cent, the department will contact the owners and after due notice remove the encroachment."

If necessary, a public meeting might be held before the completion of the survey, it added.

The circular continued as follows:

"THE PROBLEM is particularly acute on older county roads that are narrow and winding and that lack curbs and sidewalks. Pedestrian protection not required when the roads were built.

"Too many times it is financially impossible for the county to change these roads very much or for the property owners to construct sidewalks.

"Parents and their children should give constant and thorough attention to the walking safety problem. This can be and should be done immediately, regardless of any other solutions.

"Long-term improvements involving the construction of sidewalks or, possibly, the reconstruction of roads are feasible in some situations.

Science Program to Feature Orinda Youth Mon. Night

The featured student scientist on American Trust Company's television show, "Science in Action," Monday will be Alan Hill, a brilliant freshman from Miramonte High School in Orinda.

Announcement of the boy's selection for the coveted TV spot was made today by Merle D. Brown, manager of the bank's Orinda office, and James A. Lewis, principal of the local high school.

"SCIENCE IN ACTION," now in its ninth year and winner of more than 60 awards, is viewed each Monday at 7 p.m. on Channel 4.

Alan is the son of Dr. and Mrs. Earl S. Hill of 9 La Cresta Drive, Orinda. The father is a chemical engineer at Shell Development Company in Emeryville.

Alen is an exceptional young man in several respects. At age 14 he already stands well over six feet tall, with a lot more growth probably ahead. He shows considerable promise on the school's freshman and "B" basketball teams, likes the game, and should be a star before long.

HE WAS RECENTLY named first award winner in the school's annual science fair and will go on to compete in the Science Fair of the Northeast Bay Region in March and the Bay Area Science Fair in April.

The boy is enrolled in Miramonte's advanced science program, taking all science courses a year earlier than usual and slated for a year of science seminar as a senior. The head of the school's science department, Robert Campbell, says that Alan shows rare promise in the science field.

Although at Alan's age all plans are subject to change without notice, his current intentions are to go on to Cal Tech to major in electrical or electronics engineering.

DURING HIS appearance on the American Trust-sponsored TV show, Alan will demonstrate the effects of various colored lights on the growth of plants.

It was this project that gained him first prize in the school science fair.

Thiel Speaks At Breakfast

Adrian Thiel, Bay Area attorney, spoke at the Contra Costa Real Estate Board's multiple listing breakfast, held Monday at the El Nido.

The program was arranged by Bob Maxfield, breakfast chairman.

Re-organization Of County School Dept. Staff Told

Dr. Floyd Marchus, county superintendent of schools since January 5, today announced the appointment of staff members to new offices created as the first step toward reorganization of the department.

Marchus said the re-organization will be spread out over a period of about two years.

The first changes in personnel include the appointment of Harold De Fraga as assistant superintendent responsible for the operation of the entire program.

Also Mrs. Grace Thomson of Rodeo, supervisor of school records, to supervise the business services, and Harold Weatherbe of Walnut Creek as an administrative assistant.

WEATHERBE will also continue as coordinator of health, physical education and recreation to the end of this school year.

De Fraga, whose appointment had previously been announced, has been one of three assistant superintendents.

In addition to the appointment of Mrs. Thomson, the business operations are made entirely clerical, explained Marchus. Business services were formerly rendered by both credentialed and clerical and were headed by De Fraga.

Dr. Weatherbe's new post replaces the position of director of research. Research will become a part of the administrative services of the reorganized department. "It is proposed that these activities be carried out with the help of the university under its internship program."

None of the new appointments results in salary changes.

DR. MARCHUS reported that two other positions will be created and filled at a later date—directors of educational services and administrative services.

He said no specific plans have been made as to the remaining individual positions on the staff, other than to propose that the professional staff be on call instead of regularly scheduled to visit the larger districts. Such mobility is designed to provide the districts with the kinds of services needed, when needed.

Marchus said other changes proposed are as follows: payment by school districts of the full cost of direct services obtained under contract with the county superintendent; development of an informational services program that would assemble and catalog data presently scattered and lost to use; and increase in the work year of staff members in order to use personnel more efficiently.

The superintendent commented that the last point would also permit reduction in the size of the staff and allow payment of salaries on a par with those paid by school districts.

Tudor Report Is Contractor Dinner Topic

The Tudor Engineering Report on "Freeways, Expressways and Major Streets for Contra Costa" will be the after-dinner topic for members of the General Contractors Association, Thursday night at the El Nido, Lafayette.

Speakers will be Victor Sauer, county director of public works, and Ray Brown, assistant director of public works.

The dinner will begin at 7:30 p.m.

Frederick Kracke, executive vice president, said. "The material contained in this report, which cost in excess of $175,000, should prove beneficial in planning future projects.

He continued, "The report contains data on population density in 1980, as well as the needs for highways and their contemplated location."

A film, "Building for Profit," was shown at the membership dinner held yesterday at the El Nido. A membership promotion luncheon is scheduled for today.

Art Group's 'Preview' Is Sunday

The public is invited to the Diablo Art Association Spring Preview Party to be held Sunday afternoon from 2:30-5 at the association's Rental Gallery, 1545 Locust Street, Walnut Creek, the Suburban Carpet Store.

Unveiled will be a complete new selection of original paintings by local and Bay Area artists.

Among the many exhibitors' works will be oil and water color portraits, still lifes, and landscapes done in many representative styles by such artists as Jonathan Batchelor, Vivian Cook, Fay Stimac, Ruth Hussey, Jack Laycox, Molly Poupenoy, Mary Rasmussen, Irma Ulrich, Mary Way and Otto Schuchard.

Hostesses for the afternoon event will be the co-chairmen of the gallery, Mrs. Ruth Hussey and Mrs. Mona Williams, assisted by Mrs. Gertrude Stockton and Mrs. Mary Kwist.

All pictures exhibited can be rented for very nominal fees.

Those paintings for sale have the rental fees apply to their purchase price.

Refreshments will be served and buffet arrangements will follow the spring theme of the party.

Acalanes Girls Named in High Academic Group

Three Acalanes High School students have been named in the "top three per cent of high school students academically in the state."

The three students are Marcia Bates, daughter of Mr. and Mrs. Richard Bates of 3708 Mosswood Drive, Lafayette; Diane Walters, daughter of Mr. and Mrs. Paul Walters of 1054 Roderick Court, Lafayette; and Michele McKeegan, daughter of Mr. and Mrs. E. R. McKeegan of 985 Thompson Road, Lafayette.

All of the girls are being awarded a letter of commendation by the National Merit Scholarship Foundation on the basis of their "outstanding performances" in a nationwide test of educational development held this year for more than 478,000 students in 14,600 high schools across the country.

School Districts Getting Fewer And Bigger

The trend in California — and Contra Costa County — is toward bigger and fewer school districts.

Contra Costa County's total of school districts has decreased 36 per cent since 1940 because of consolidation by unionization, unification, or annexation.

In the same period 40 per cent of the California districts unified or unionized.

Contra Costa County's elementary districts decreased 19 in number, or 44 per cent, its high school districts by one.

The unification of the area encompassed by the former Mt. Diablo High School District alone eliminated 12 elementary districts as well as the high school.

Other elementary districts to disappear in the 17-year interval were heavily concentrated in East Contra Costa County—Excelsior and Hot Springs, now part of Byron Uunion; Jersey, now part of Knightsen; Liberty, now included in Brentwood Union.

Highland has become part of May District, Livermore. Tassajara was absorbed by Danville Union and Sobrante by Pinole-Hercules Union District.

Within the next few years, reports County Superintendent Floyd Marchus, the number of elementary school districts may be further reduced.

Machinery to dissolve the Lone Three District is already in motion, and the decline of attendance at Briones Valley School to one below the legal minimum of five thus far this school year could result in the extinction of the county's sole remaining one-teacher school.

Man and His Environment Is Subject

Diablo Valley College is offering Tuesday and Thursday night classes in Geography 130, a course concerned with the interrelation of man and his physical environment in the major regions of the world, as part of the program for part-time students.

The classes which started last week, were not previously announced, Verle Henstrand, assistant dean of instruction in charge of the program, said.

The instructor is Mrs. Callie Lukermann, who holds a masters degree in geography and who has traveled widely in Europe and the Near East.

To register, students should report to the campus cafeteria which is open 6:30 to 8 p.m. Monday through Thursday nights for the first two weeks of the spring semester which began last week. There are no registration or tuition charges.

Meet to Plan Annual Event

Dollies, Inc., will hold an organizational meeting on Monday, February 16 at 10 a.m. at the Volunteer Bureau, Walnut Creek. Mrs. Donna Planz, executive director of the bureau, will act as chairman.

Since 1955, Dollies, Inc., has restored and dressed 420 dolls for distribution to needy children of Contra Costa County at Christmas time. In 1958, through the efforts of many individuals and participating groups, 220 dolls were refurbished.

In order to plan for the future, representatives of contributing organizations have been invited to the meeting.

Among those groups to be represented are The Christmas Bureau, Lafayette Senior Citizens, Women's Societies of the Lafayen's Community Methodist Church, P.A.N. Club of Walnut Creek, Lafayette Women's Club, Orinda Women's Club, Campfire Girls of Christ the King Church of Pleasant Hill, Diablo Valley Girl Scouts, Rainbow Girls of Pleasant Hill, Brownies of Glenside.

A total of 4,734,770 automobiles, trucks, and buses entered California during 1958. This figure represented an increase of 257,913 over that for 1957.

McWilliams, VanDelinder, Fickel are PTA 'Lifers'

Three honorary PTA life memberships were presented last Monday by the Mt. Diablo Council, Parent Teachers Association, during the annual Founders Day program held in the Contra Costa Real Estate Board building in Walnut Creek.

The life memberships went to Mrs. David McWilliams of Concord, Rev. H. W. VanDelinder of the Danville Community Presbyterian Church, and Dr. Richard Fickel, Walnut Creek School District assistant superintendent.

Mrs. McWilliams, a housewife, is the Mt. Diablo Council student welfare chairman.

Through her efforts, clothing has been distributed to 75 needy children and their families. The activities were conducted through the Mt. Diablo PTA clothing center.

Mrs. McWilliams washed, ironed and mended clothes for the program.

Rev. VanDelinder is a Danville community leader who has shown special interest in the youth program.

He has been in charge of Boy Scouts, Girl Scouts and supervised dances and other youth activities.

Dr. Fickel is the council's public welfare director and he has been active in the council's work since he came to Walnut Creek as district assistant superintendent.

The awards were presented by Mrs. Elliott Mauzy, a council past president, and now an honorary life membership chairman.

Speaker at the meeting was Dr. Floyd Marchus, county superintendent of schools. He discussed "Coordination of Administration Services," between the county office and the district schools.

Chief Has Experience

Roger L. Bales, newly appointed Scout executive for the Mt. Diablo Council of the Boy Scouts of America, will assume his new duties Sunday, according to A. F. Bray, council president.

Bales succeeds Victor Lindblad, Scout executive of the Mt. Diablo Scout organization since 1936.

The new Scout chief will bring to Mt. Diablo Council Scouters a background of successful experiences. Since 1949 he has served as a deputy regional Scout executive in Region 11, which is the northwestern area of the United States.

In this position, he was responsible for the organization of Boy Scout Councils in Alaska. He is a graduate of the University of California and has done post graduate work at Stanford University.

Bales was assistant executive of the Mt. Diablo Council from 1938 until 1942. For three years he was a Scout executive at Everett, Washington, and transferred to Eugene, Oroegon, in 1945 to fill a similar position which he held until his promotion to the regional staff as deputy regional executive in 1949.

Oregon's Year Book of Who's Who honored Bales as one of the state's outstanding citizen of 1957.

WATCH INTERSECTIONS

City intersections are potential danger spots, especially those that do not have stop signs. Always be prepared to stop quickly at corners, even when driving on through streets.

Dr. Chan has taught at leading Chinese and American universities and recently has been director of the Chinese Research Project at Stanford.

Author, scholar and lecturer, Dr. Chan will discuss factually in his theme, "The U. S. and Communist China", the political economic, military and social systems of the Communist regime and its foreign policy toward the United States.

Coffee will be served prior to the lecture and the public is cordially invited to this enjoyable casual period starting at 10 o'clock. Tickets may be purchased at the door the morning of the program.

Mrs. Stanley Friden will introduce the speaker.

Reynolds Give Service Awards To Employees

Eighteen veteran Bay Area employees of Safeway Stores received special awards at a luncheon honoring their 525 years of service.

Quentin Reynolds, Safeway San Francisco Division manager, made the presentations before his staff and other employees.

The service awards, for employees servicing the company for periods of 25 and 30 years, ranged from gold watches, U.S. Savings Bonds, and mantel clocks to diamond set insignia.

Distinguished among the recipients of awards was Arthur Hagist of Alamo. His service with the company dates back to November 15, 1928, when Safeway acquired the Piggly-Wiggly Stores for whom Hagist then worked.

He is currently a meat cutter in the Rheem Shopping Center Safeway Store. Hagist received a diamond set gold tie bar from Division Manager Reynolds, who expressed the company's warm regard for his efficient and faithful service.

As each of the honored employees received their awards at the luncheon, their service with the company was briefly reviewed by Reynolds, who cited each as outstanding examples of faithful service.

College Has Free Movie

The Audubon Screen Tour "Waterway Wildlife," a sound film recording the voices and appearances of water fowl and water-loving animals, will be shown in Diablo Valley College gymnasium Monday night at 8. It will be open to the public free of charge.

Leonard Hall, master conservationist and Audubon photographer who took the film, will be present to give a running commentary.

By the use of time-lapse photography he has recorded the way in which a gentle rain prods plants into growth. The film also contains scenes of the great destructive forces of water.

Here Are Questions, Answers About Swimming Pool

An all-out campaign to raise funds to help pay for the proposed $55,000-$60,000 Miramonte High School swimming pool will be launched on February 28.

AT THAT time high school students will help collect funds from Orinda, Moraga and Canyon residents for the community project.

Approximately half the cost is to be met by the Acalanes High School District; the balance must come from residents.

THE MIRAMONTE Pool Steering Committee has prepared a question and answer "Fact Sheet" concerning the need for and benefits to be derived from the proposed pool. James Dana is chairman and Mrs. Robert Bowles is co-chairman.

A condensed version of the "Fact Sheet" follows:

Question: Why a swimming pool for our community?

Answer: Our students and families of Orinda, Moraga and Canyon need a place to swim all year 'round. The beautiful Miramonte High School campus is an ideal spot to build this community facility.

Question: Who says we need a swimming pool?

Answer: Parents, teachers, students, civic organizations and businesses all say so. The Parent's Clubs of Miramonte, Pine Grove and the elementary schools plus civic groups have endorsed the project.

Question: How much is it going to cost?

Answer: Plans have been drafted for a pool costing $55,000 to $60,000. This will provide a competitive size pool, diving area and necessary equipment for recreation, health, safety and comfort. Lockers and shower rooms exist; boiler room facilities and piping were installed when the school was built.

Question: How much should I give for the campaign?

Answer: The goal can be reached if families will contribute only $5 per person, adult and child. Contributions will be returned in full if the pool is not constructed this year.

Question: Isn't that an awful lot?

Answer: Not necessarily, if you look at the cost as an investment in safety and enjoyment for your children as well as yourself. The cost of a package of cigarettes each day for the month of February will provide the $5 contribution for one child.

Question: Why should I contribute now? Why not let the School District pay for all the cost?

Answer: By contributing now you will get to swim in the pool by this summer. The School District's Board of Trustees has followed a policy of obtaining public support for pool construction. The Las Lomas High School, Walnut Creek, was financed partly with school building funds and partly by contributions from the people. If the Orinda community expects the district to pay the full cost without contributions, it will have to wait many years until other facilities are completed. We need this pool now—not 10 to 15 years from now.

Question: Will the pool really be ready this summer?

Answer: Yes, if the drive is successful a July 4 opening date is planned.

Question: Why not borrow funds from the state?

Answer: State funds are available for building purposes only to schools which are certified as "overcrowded." Miramonte is not overcrowded. Moreover, state funds cannot be used for swimming pool construction.

Question: Could the pool money be used to improve the bus situation?

Answer: No. The building fund money can only be spent on building facilities at Miramonte High School.

Question: Does that mean these funds cannot be used for new school building I've heard we need for elementary grades to eliminate double sessions?

Answer: Yes. The funds for elementary grades are raised for the Orinda School District which is not part of the Acalanes High School District. The building funds cannot be interchanged or transferred as they come from separate tax districts.

Question: Can I give cash?

Answer: Yes and you will be given a receipt.

Calendar of Events Can End Conflicts

What's going on?

That question can be answered for many Contra Costa County service agencies and community organizations if they will use the Calendar of Events which is to be maintained by the Community Welfare Council of Central Contra Costa County.

Louis Ruybalid, director of the council, suggested that the Calendar listing of special events, fund raising activities, and meeting dates of the groups will serve as a clearing house for dates, and it could eliminate conflicting events.

A call to the council headquartersters at YE 5-2307 will give information about any activity shown on the Calendar throughout the year.

Users of the Calendar can benefit most by seeing that their activity dates and meeting places are listed correctly with the council.

By using the listings as a reference service to coordinate community activities, both group and community can best be served.

Such service groups as PTA councils, Boy Scouts, Girl Scouts, Campfire Girls, churches, Therapy Center, Recreation and Park Department, and all the other helpful and dedicated social welfare groups in the county are invited to list with the council.

Through growing participation in this Calendar program, the important dates of activities of all community service groups in the county can be put into "apple pie order," Mrs. Ruybalid said.

WHAT'S DOING

Howard Greenhalgh, your Telephone Manager in Orinda

This flying phone crew is using a helicopter to find suitable locations for new radio relay towers to carry your calls. Rather than build costly access roads, they airlifted themselves and their heavy radio test gear into rugged, roadless country. In five months they logged nearly ten thousand air miles and wrapped up a job which could have taken a year. And flying crews aren't the only phone people who work with time-saving equipment. On every phone job we look for the most economical way to do it.

Why not pay your telephone bill in person this month or just drop by 1250 Arroyo Way, Walnut Creek, to see the color phone of your choice. In the picture above Mercedes Rossol demonstrates color flexibility to Manager H. C. Greenhalgh, with a contrasting decorator display.

Where There's Smoke There's Fire . . . Let's Take A Look

Unfortunately, inefficiency and waste exist in some of our governmental subdivisions.

The Contra Costa County Grand Jury is currently investigating the situation as it exists in the East Contra Costa Fire District.

This is not a remote situation, as far as we of Central Contra Costa are concerned. This fire district operates in the Moraga area and is contiguous to all the fire districts which serve us directly, including Orinda, Lafayette, Central and Mt. Diablo.

Working agreements exist among these districts, and they aid each other in fighting fires when the need occurs.

THIS IS AN OLD story. The Sun has printed facts, during the past month, on inefficiency and waste in the East Contra Costa Fire District.

Now the county administrator, the district attorney and the grand jury are investigating the facts of the case.

This is how newspapers work. A situation becomes apparent, the newspaper points out the situation in its news columns and the facts are investigated by the authorities.

In this particular case, action should be taken. Not only should the situation be remedied—particularly the telephone listings which are the same for Marsh Creek Lodge and the East Contra Costa Fire District, but past money that has been spent by the fire district should be collected.

THIS WAS TAX money that was spent for telephone listings which were for a private business. It is not sufficient to correct the situation and let bye-gones be bye-gones.

The taxpayers have something coming.

In addition to the telephone listings, other charges have been made and the grand jury will have to investigate these charges.

Let us consider the subject of fire districts as governmental units. In the first place, any criticism that is leveled against the East Contra Costa Fire District is intended in no way to reflect on the management or operation of the other fire districts which serve us.

FROM TIME TO time the subject of consolidation of fire districts has come up. But let's not be too hasty. Here is a fire district, the East Contra Costa district, which operates directly under the board of supervisors.

Consolidation of districts could be good, but whether or not it should be done with districts formed under the 1923 act, where the commissioners are responsible only to the board of supervisors, or not requires some study. Certainly the board of supervisors is too busy to act as a watchdog for hundreds of separate districts.

There Are Fringe Benefits...

The recent Market Survey conducted throughout the area proved most enlightening.

In many respects, it confirmed some things that were generally known already—but it also pointed out a few things that were not so apparent.

It left no doubt that most people are shopping at home. We have found that we no longer have to leave our area to find the commodities and services that we need.

It is important to realize, when considering the results of this survey, that it was conducted in each of our communities—that is in Concord, Lafayette, Orinda, Danville, Alamo, Walnut Creek and Pleasant Hill.

IT WAS NOT a great surprise to find that most residents here are shopping at home—or in the general area. Most of our housewives recognize a good bargain when they see it, and they have found that they can accomplish one primary purpose through shopping at home—they can get what they want at competitive prices.

Of course, it is more convenient, too. And cheaper, because every time you drive through that tunnel it costs about $3, when you take into consideration gas, oil, tires, parking and nerves, nerves, nerves.

So, obviously, it is more convenient to shop at home. Most people know this.

WHAT THEY DON'T realize, perhaps, is that by shopping at home we are helping to keep the sales tax funds in the area, where they will benefit us directly.

You are, when you shop at home, patronizing people who pay taxes to your school districts, and to the county. You are supporting those men and women who are supporting your community, and who are making it a better place in which to live.

YOU MIGHT STOP and think for a moment. To whom do you go when you need a prize for your next club affair? When you want fashions for your next fashion show, whom do you see?

These are the local people who are doing their best to serve you.

It is obvious that it is more convenient to shop at home. The Market Survey proved that people find their local stores stocked with what they want at competitive prices.

But the fringe benefits of shopping at home can be indicated nowhere but in the ultimate growth of the community—and you are contributing to that when you shop at home.

The Staff Corner

Maybe You Understand It?

By DICK OSBORN

It's hard to tell what will pop up in this corner from time to time. The editorial staff guards its little cubbyhole down here with jealousy, and as each staffer's turn comes to fill the space, he retires behind his typewriter with secrecy and no small amount of skulking behind the papers clips.

We try to keep it general—and local—because that is the policy of The Sun. It isn't our newspaper—it's yours, and if what we write doesn't interest you, then it is worthless.

But I'd like to get personal this time around. Not really personal, you understand, but just personal enough to relate a couple of things that happened to me.

They might have happened to you, too, and maybe you have insight enough to understand them. I don't.

IT WAS RECENTLY my privilege to buy a spanking new MGA—a little sports car that is black and sleek and very well polished (now).

Pride of ownership runs rampant through my veins—I've had the car two weeks.

The inevitable happened. The car was parked near our Walnut Creek Sun office, and somebody—I have no idea who—decided to use the fenders as stepping stones.

It was a childish trick. Whoever was "being funny" just stepped on one fender, then on the other, leaving some very lovely scratches on both and a small dent in the hood.

This is vandalism—pure and simple—or thoughtlessness. I hope it was the latter.

OF COURSE, WITH a small, black car, which is very low, you run the risk of having the sides bashed in continually by people with bigger cars who simply don't look where they are backing—or if they do look, don't see you.

But if you do get "bashed," it's awfully nice to find a note under your windshield wiper with the name and address of the guilty party.

It discourages your faith in human nature to come back and find nothing but dents.

Now my problem, friends, is this. I have been brought up to believe that people are decent and friendly. I have met thousands, literally, here in Lafayette, Orinda, Walnut Creek, Pleasant Hill, Alamo and environs, who are the most wonderful people in the world.

But the other side of the coin is disturbing. Does it bother you, when something like this happens?

I CAN IMAGINE how those people felt, who, when they returned home one evening, found that their living room had been smeared with eggs, flour, syrup and other foods.

Of course, you would be guilty of none of these things—nor would I, nor would any of our friends.

But they happen. They may have happened to you. They may have happened to your friends.

And, unfortunately, it isn't always the "kids" who are to blame. Walking across the car—yes, I can believe that that was done by an irresponsible youngster—and so would the destruction of a living room.

But other things are the work of adults.

And I don't understand it. Do you?

Inside Out . . .

Way Out, But Its Really Just the Way You Say it

By JOYCE BARNUM

Here I stand far out in left field feeling rather lonely.

At various times in my life others have classified my sense of humor as "warped," "shaggy-dog," "off-beat" or "out in left field.

A COUPLE OF weeks ago I wrote a column advocating an "experiment in driving" — said experiment being to try driving the legal speed limit.

To my open-mouthed surprse someone read the column! And the reader, who is on the ball up there in the infield, became angry at my unorthodox style of left field play.

Much to my delight she promptly penned a note to the editor proclaiming her indignation. Reasons for my delight are twofold: (1) Someone read the column, and (2) the reader is as incensed as I am at immature driving.

I can only say that both of us have our eye on the ball but we make the play a little differently.

ALTHOUGH I HAVE on other occasions written seriously on my dismay at irresponsible driving habits, no one has written in to agree with me.

But when I aim in the same direction, admittedly using a Casey Stengel bird under the cap approach to the problem I promptly get a serious objection.

I'd like to thank the angry reader for the response.

I reiterate — my sense of humor and I get a little lonely away out here and it's far better to get a bronx cheer than utter silence.

Sort of lets you know that you're doing a poor job of fielding, while acknowledging the fact that you at least tried to make a catch.

Music Trip AAUW Topic

Robert P. Commanday, director of the University of California Glee Club and Treble Clef Society, will conduct a "Musical Trip Through Japan" at the Walnut Creek Branch of the American Association of University Womens' general meeting, Wednesday at 8 p.m. at the Women's Club House.

Husbands and friends are invited to attend.

Commanday toured Japan last summer with members of the University of California Glee Club. At this meeting he will use both slides and tape recordings to show how the Japanese students handle "our" music.

After receiving his AB with honors from Harvard, Mr. Commanday did graduate work at the Juillard School of Music, Cornell and the University of California, and now refers to himself as a "native" Californian.

This was accomplished in his off-duty hours of his army career.

Letters to The Editor

DOPE

DEAR EDITOR:

I have been giving a great deal of attention to the proposed legislation carrying out the desires of the Elks Club petition.

Among other things, I have written each of the Superior Court Judges and the District Attorney of our county. I have done a great deal of supplementary reading in addition to consulting the above-named persons in order to prepare myself for the hearings on that legislation.

As you know, the matter will be coming before the criminal section of the Judiciary Committee, of which I am a member.

If I were convinced that this legislation would, in fact, deter the peddling of narcotics, I would have no question about supporting this bill. However, I am not convinced at the present time that this legislation will, in fact, have any deterrent effect whatsoever.

As a matter of fact, the indications that I have had so far are that the opposite might well result. Clearly, then, if the hearings establish that this bill will detract from effective prosecution of narcotics violators, I shall oppose the legislation.

I confess that the horror of narcotic addiction and the ever present possibility that my children as well as yours might be enmeshed in this filthy picture gives me grave concern. But this concern is one of the reasons for my reluctance to favor this legislation on the basis of the information and opinions of which I am now in possession.

JEROME R. WALDIE

PETITIONS

DEAR EDITOR:

Enclosed is the narcotics petition.

If you don't mind a suggestion—why not rerun the form in The Sun, but make it a full column with room for 50 or 100 signatures?

My own family did not get on this one—just far too little room for all.

Last fall I served eight days on a federal jury in San Francisco. All this time was devoted to trying one case. Narcotics were being smuggled into the United States by the defendants. Witnesses, about six, were brought from Japan, a prisoner and guards from Tacoma, Washington, and federal narcotics agents.

THIS TRIAL may have cost the taxpayers $100,000. At the end of the eighth day, pleas were changed to guilty, so all the time devoted by the jury was practically wasted.

But the true cost is not that of expensive trials, but the enslavement of victims of the dope racketeers and the effects on society, through increasing crime.

THE SOLUTION is, I believe, in mandatory, long term jail sentences for first offenders and capital punishment for second offenders.

JOHN B. BARCHFIELD

(Ed Note: Space is at a premium in The Sun. We suggest, however, that the petition can be typed at the top of a sheet of paper and as many people may sign as care to.)

TRIBUTE

DEAR EDITOR:

Two of our friends have just let us know of Mrs. Powell's death and I hasten to write the entire community of its loss. Never have I known a woman such as she, one who loved her fellowman, and was concerned about the community in which she lived enough to do something about it, and one who refused to grow old with "grumpiness." Her heart and mind were ever young!

I wish I were eloquent with words, and could write a tribute to her, for even in Cambodia we shall mourn her going and will always consider it a real privilege to have known her for so long.

One day I read this poem by H. N. Fifer, which was written, using the masculine pronoun, but I read it to her using the feminine pronoun and in all sincerity and humbleness she said "Oh!, I wish that could be said of me." This is our tribute to Mrs. Kora Powell:

SHE LIVED A LIFE

What was her creed?
I do not know her creed, I only know
That here below, she walked the common road
And lifted many a load, lightened the task,
Brightened the day for others toiling on a weary way:
This her only need: I do not know her creed.
What was her creed? I never heard her speak
Of visions rapturous, of Alpine peaks,
Of doctrine, dogma, new or old;
But this I know, she was forever bold
To stand alone, to face the challenge of each day,
And live the truth, so far as she could see—
The truth that evermore makes free.
Her Creed? I care not what her creed!
Enough that never yielded she to greed,
But served a friend in her daily need!
Plucked many a thorn and planted many a flower;
Had faith in God, herself and fellowmen—
Perchance she never thought in terms of CREED,
I only know she lived a life, indeed!

Do We Want Our Beautiful Weather to be Ruined?

By HERMAN SILVERMAN

Have you been to the Los Angeles area in recent years?

Well, if you haven't, I wouldn't blame you. For the first time in 14 years, I visited L.A. on business last summer. Let me report to you—it was horrible. And I'm not speaking of anything but the **SMOG.**

I know you've heard the gags on TV and read stories in papers, but you won't believe how bad it is until your eyes start stinging and you feel miserable.

I remember pleasant Pasadena and Santa Monica with perfect weather some years ago. They had almost as good weather as we enjoy in central Contra Costa County.

It can happen here

Of course, the point of today's epic is whether we are going to permit our beautiful area to be spoiled by smog. The question is not whether we are going to have smog. We have smog now! Not much, thank gosh, but it is here. And it will increase—with more cars, more houses, more incinerators and more industry to the east and to the west.

Do you agree that we must stop smog at any cost?

Certainly I would not be happy if I had to pay for hauling trash away at home instead of burning it. I would be unhappy if forced to buy smog-prevention equipment for the car, particularly if it costs several hundred dollars. If I ran a large industrial plant, I would be unhappy to pay hundreds of thousands of dollars to install anti-smog equipment.

We have, however, no alternative but to do everything that is needed. And I think we will—willingly.

Where can you buy one?

More people in L.A. would be happy if they could now buy anti-smog attachments for their cars. (Apparently the car is the No. 1 producer of smog.) But there is no such equipment on the market. The automobile industry reports no immediate development in sight. And they say this with a shrug. They don't seem to be too concerned about. it.

No wonder L.A. (and California) has started a battle with the Detroit auto magnates. Last month the L.A. City Council asked the legislature to enact a law prohibiting the sale of cars in California after January 1, 1961, unless they have smog prevention equipment on them. Owners of older cars would also be required to install the devices.

"If it takes a new-car boycott to force Detroit manufacturers to turn their demonstrated ingenuity and know how to an immediate crash program of devising a proper afterburner or catalyst so that the cars they produce do not make urban life next to impossible, it is high time we make such a boycott effective," said an L.A. official.

More study needed?

Such a bill is being considered by the legislature.

Governor Pat Brown, however, has presented his smog program—which places emphasis on more study rather than tough control laws.

I agree with the critics that Brown's program is not strong enough. Los Angeles has been studying and fighting smog for years. In the Bay Area, we have a smog control agency. We need tough action—state-wide. Now—not two or four years from now.

And, neighbor, if you aren't convinced, just take a good sniff on your trip down to Disneyland.

FLOODS

Dear Editor:

If we have another flood it will be my fourth. Yet, my taxes are the same as those who haven't been flooded, but my home is $1000 to $1500 less in value on the market.

We bought nine years ago in Pleasant Hill. Now I have my home up for sale due to all this "fairness."

Mrs. Eugenia E. McKee.

DEAR EDITOR:

I am wirting with reference to the articles in the Sun of February 6, 1959, on the subject of fluoridation of our water supply.

It is obvious that the editor of The Sun and our Assemblyman Waldie are strongly in favor of fluoridation. Undoubtedly others of your readers feel the same way. On the other hand, I can assure you there are many in our community who just as strongly disapprove this proposed violation of our constitutional rights as citizens.

My concern lies in the fact that fluoridation is mass medication by public health officials which ignores the individuals wishes and is a violation of constitutional rights. Why should these officials assume the authority to enter our private lives and experiment upon us with their theories?

In published testimony before the House Un-American Activities Committee a former Communist, Oliver Kenneth Goff, testified that he had attended Communist underground training schools where he had been trained in the art of revolutionary overthrow of the established government, including the art of poisoning water supplies. To quote:

"We discussed quite thoroughly the fluoridation of water supplies and how we were using it in Russia as a tranquilizer in the prison camps. The leaders of our school (Eugene Dennis, Morris Childs, and others) felt that if it could be induced into the American water supply, it would bring about a spirt of lethargy in the nation, where is would keep the general public docile during a steady encroachment of Communism.

"We discussed in these schools the complete art of revolution; the seizure of the main utilities, such as light, power, gas and water; but it was felt by the leadership, that if a program of fluoridating the water could be carried out in the nation, it would go a long way toward the advancement of the revolution."

You also mentioned the possibility of some "log-rolling" in Sacramento. I will say this. If our representatives will vote to oppose fluoridation in return for support for keeping us out of the transit district, that will be just fine with me."

WILLIAM C. BRALY.

EBMUD

DEAR EDITOR:

East Bay Municipal Utility District has informed us of their intention to make our home here in Lafayette uninhabitable on January 25 by their order to the homeowners through which this house has, since its existence, obtained water that their water will be shut off unless they shut off ours.

After close to ten years of allowing this water connection to exist, after allowing an employee of their company an identical water hookup for years, suddenly we are to pay E.B.M.U.D. about $500 for the water connection. When the property was subdivided, they didn't demand this connection, when the property was sold to us, they didn't demand this connection. In fact, both the previous owner and the real estate agent informed us an agreement existed with the original owner-developer of the property which was to always provide water to this house and so there was no problem!

Well, we have no money for a legal battle any more than we have the money for the water. During 1958, my husband was out of a job twice and saw the closing, just before Christmas, of a business he had started in Walnut Creek and from which loss we are attempting to recover at this time. Although E.B.M.U.D. is aware of this, they show no regard for our plight. We have had them reject the offer of time payment and we have even listed our home for sale, promising that, when sold, the water will be installed as they demand.

How will we live, what about illness, fire, sanitation, care of pets and yard? I dont know. However, I do know there is something wrong with a public utility which is allowed to become a monster who ansers to no one and takes the utmost advantage of everyone. What is wrong with the management of such a utility that people are forced and pushed and ruined rather than having compromise and agreement and friendliness?

SUSAN STONE

EDITOR'S NOTE:

The house which the Stones purchased has received its water supply through a pipeline which is connected to a second house. Originally the two houses shared the same lot as well as the same water connection.

Pi Phi Alumnae Relive Campus Days With Sing

Gathering together last Wednesday evening, Pi Phi alumnae of this area had an old-fashioned "Sing" that captured a bit of the old campus spirit.

The Contra Costa Chapter of the Alumnae of Pi Beta Phi met at the Lafayette home of Mrs. George Dibble, 3608 Lincoln Way, for coffee and dessert and a review of the Pi Phi tunes that they used to sing on "Sorority Rows" across the country. The members of the Contra Costa Chapter of Pi Beta Phi are, in most instances, transplants to California from other states and so are particularly anxious to invite Pi Phi newcomers to this area to join them and share in their activities. Recent meetings have included a dinner hosting a Pi Beta Phi national officer and a potluck supper with husbands as honored guests.

Any Pi Phi alum interested in further information is most welcome to contact the chapter president, Mrs. R. E. Bernard of Orinda, DRake 6-5571, or the secretary, Mrs. Roger H. Downs, Concord, at YE 5-4394, or vice-president Mrs. Gale Harris, Lafayette, YE 4-2786.

On The Lighter Side

by INA BLIESNER • YE 4-3818

Art League members of the East Bay, whose Christmas card sales supply a large source of income for the Junior Center of Arts and Science, celebrated their 20th year of operation with a dinner party given at Mrs. Lyle Lund's home on Old Jonas Hill Road.

Many pre-dinner parties were given on both sides of the Tunnel. Some of the members from "our land" are the Mmes. Timothy Colvin, Oliver Gardner, A. H. Thompson, jr., A. Philip Merrill, Oliver D. Hamlin, George Davis Simpson, J. Walter Scammell, Warren Hudson and Grant Kauffman.

Never know where they'll turn up . . .

Dorris and Paul Daly recently invited 50 friends to their new home in Lafayette for a housewarming—a few of their guests were Carol and Evert Hodges, Peg and Dan Arena and Peggy and Don Smith. The Dalys are kind of "round robin" movers, it appears. A few years ago they moved from Oakland to Belmont, from there to Los Altos, then Santa Rosa and finally to Lafayette—where they were surprised to find that many of their neighbors are former friends from Oakland. By-the-way, Dorris recently received an S.O.S. from Santa Rosa. Seems that the horse she keeps pastured there was badly in need of new shoes and as Dorris has a special technique for catching him—a quick trip was required.

Marion and Addison Thompson are home from a delightful vacation. From San Francisco they sailed away on the Swedish freighter "Moldanger," upon which they spent twelve heavenly days en route to Panama where they stayed for five days.

Then came a flight to Guatemala City for a week's visit and on to El Salvador for another five days before flying home. MMMM! Sounds intriguing!

Oriental Fantasy was simply GREAT

We weren't particularly in the mood for a fashion show-tea last Saturday but Connie Kieny and I met at St. Paul's Episcopal Church anyway—more to have a visit with each other than anything else. How GLAD we are that we did, for the affair, "Oriental Fantasy," was glamorous, exotic, beautifully directed and stunningly decorated. Stark white banners centered with red, Chinese characters hung from ceiling to floor.

The commentator, lovely Mrs. Russell Giles, told us later what each meant—pure poetry, as suited the Oriental theme. Big red dragons adorned two screens between which the models entered—to keep away evil spirits, you see. There were flying fish, unusual red and white lanterns, SUCH artistic arrangements of grasses, bamboo and antherium—all grouped in front of Shoji screens.

All of the models were outstanding—but the four Chinese girls were especially exquisite. One had been the 1956 Queen of the Chinese New Year affair in the city. The show featured ancient to modern fashions: authentic, originals and copies. From the ancient bridal party through the transitional "roaring twenties" to the present day these costumes had either been collected or designed by "Norma of Da-len" and I, for one, have seen nothing as elegant in years—if EVER! Such fabrics, style, detail!

One precious doll, who modeled just one outfit, was Norma's daughter who had been in this country only two months after 13 years in Communist China—their first reunion. Some others attending: Ginger Hatfield, Ginny Brandes, Ardith Lazzareschi, Marge Shimmel, Marion Pangburn, Eleanor Taylor, Mary Anderson, Lucille Stansbury, Jo Ann Van Gelden, Barbara Wright, Mary Hays, Gayle Ray, Sally Peckenham, Margaret Fuller, Mary Harper and Mrs. P. W. Harris. Must mention Lillian (Mrs. William) Palmer who greeted guests at the door in a fabulous mandarin outfit—mostly red and white—and SHOULD have been IN the show.

Some of the other committee members were the Mmes. Gordon Frazell, James Sears, Don Rowe, G. T. Harter and E. G. Craig.

Talented Catherine Lucido is AMAZING her art instructor these days. At the first evening class she displayed an oil she had done at home and it seemed unbelievable that Catherine had had no previous lessons. A name to remember!

A pair of interesting visitors . . .

Mr. and Mrs. Frank Fink of Walnut Creek have been entertaining two lovely and interesting guests. "Fee" Fink's mother, Mrs. Albert Allee of Tucson, Arizona, and her aunt, Dr. Laura E. Miller of Des Moines, Iowa. Dr. Miller, a practicing physician at the tender age of 72, is one of THOSE wonderful, jaunty women who LIVE! Incidentally, she carries, on her many trips, a large map and uses a different color pencil to trace routes and pin-point interesting spots visited.

In this way she can easily relate each year's experiences to her anxious listeners back home. In Mrs. Allee's and Dr. Miller's honor Marge (Mrs. Richard) Schimmel entertained with an "Over-a-Cup of Tea" party. Some of her guests were the Mmes. William Phelan, Walter Stockton, Joseph Terra, Herbert Rodgers, Don Hanawalt, James C. Howe Jr., Archer Irwin, Jack Cullen and Perry Thornton.

The two visitors have been taken on many tours by the Finks—to mention a few: They "covered" Marin County, San Jose, International Airport, San Francisco and Fairyland.

I just took time out to join Juanita Benoy, Marguerite Coffey and Earl Miller (all of the Center) in a quick trip to Pittsburg where we visited the brand new "Thrift Shop" sponsored by the brand new Wrens. We were MOST impressed with the shop itself and with the caliber of the merchandise. On duty while we were there were Mrs. Michael Gatto, the president, Mrs. Warren Buchanan and Mrs. W. F. Bankson. Such enthusiasm they have! It will be open on Wednesday and Thursdays from now on.

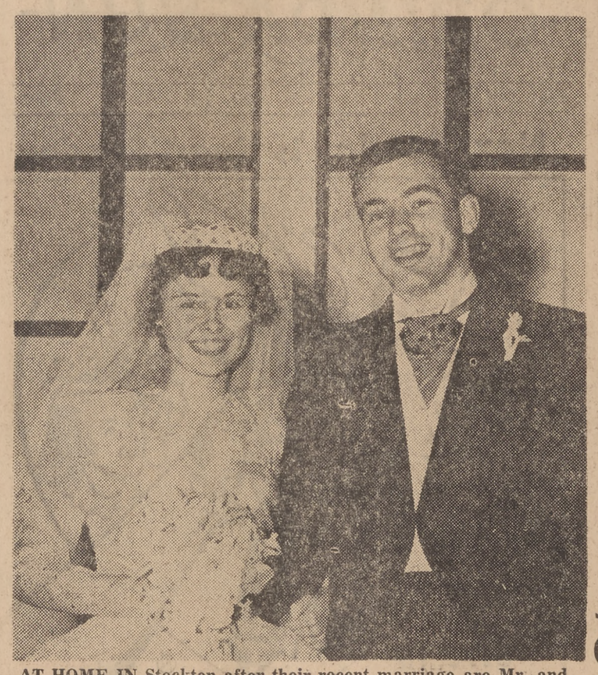
A business trip we'll all enjoy . . .

Thais and Rupert Lewis will be returning in a day or two from two weeks in the Islands. This was a business trip—such a business! They planned to "do" all the Islands by air.

To celebrate Bud Wanous' birthday, he and Kay joined friends for a snow weekend at Shaver Lake—says here, in my notes, near Yosemite—but, being an old Fresno-ite and having spent MANY happy days at Shaver Lake, which is on the way to our beloved Huntington Lake, am thinking that that must be the one.

'Twill be ten wonderful days at Sun Valley for the "ever-doing-things-together" Don Priewes, Dave Purringtons and Bob Cuenins. Have you seen their new offices on Petticoat Lane? Lovely! Tommy Knox proudly escored his dad, Phil, to the annual father and son potluck dinner sponsored by Boy Scout Troop 214. Tommy's ever busy mother, Joan, is chairman of the Coordinaitng Council of the Therapy Center this year and, as usual, is "up to her ears"! Over the weekend, adorable Donna Lynn Campbell and David Helbert were married.

Their rehearsal dinner was held at the "Villa San Ramon" and the wedding reception took place at the Claremont Hotel. Have never SEEN as full-a-skirted gown as Donna wore and she and her handsome father were a picture as they started up the aisle. Preceding them were four lovelies in regal-blue faille gowns—the skirts caught up at the hemline with large blue roses. Must say that the young men added much to the elegance in their block frock coats and pearl grey trousers and gloves.



AT HOME IN Stockton after their recent marriage are Mr. and Mrs. David Payne Helbert (Donna Lynn Campbell). The couple was married in Walnut Creek Presbyterian Church and spent their honeymoon in Apple Valley and Las Vegas.

Miss Westfall Engage to Wed

Mr. and Mrs. Frank Westfall of 918 Hough Ave., Lafayette, announce the engagement of their daughter, Miss Mary Jean Westfall, to Dr. Saul W. Rosen, son of Mr. and Mrs. David Rosen of Boston.

Miss Westfall is a graduate of Acalanes High school and is in her senior year at the University of California School of Nursing, San Francisco. During her first two years on the Berkeley campus, Miss Westfall was affiliated with the Alpha Xi Delta Sorority House.

Dr. Rosen is a graduate of the Harvard School of Medicine, and has completed two years at the University of California Hospital. The benedict is now with the Public Health Service at Bethesda, Maryland. The wedding will take place in June.

Jr. Women Sponsor Course On Art of Baby-Sitting

The Junior Women's Club of Walnut Creek in cooperation with the school board and the PTA is sponsoring a six weeks course of instruction for baby-sitters.

Classes started Tuesday at Buena Vista School and Wednesday at Parkmead School.

Classes are held after school and are open to seventh and eighth grade students and parents who are interested in learning about the responsibilities of child care.

Each week a new speaker will present facts of interest. Speakers will come from the Fire Department, the Police Department, a first aid instructor, a doctor, and a nursery school teacher.

The last meeting students will be presented "diplomas" and a guide for future reference.

A similar class was held in the fall at Walnut Creek School and 65 enthusiastic students graduated with a better understanding of what they should do and know when they accept the responsibility of caring for children.

Teachers Appreciation Day was observed on Monday. Junior Women's Club members children presented their teachers with apples and a lapel card.

This is a federation project and more than 857 Juniors will participated in California. Walnut Creek Club belongs to Mt. Diablo District, CFWC, Junior Membership.

Members will also help stuff envelopes for the Contra Costa County TB association and are working hard on a fashion show and luncheon to be held at the Claremont Hotel on February 28.

Proceeds from this affair will help furnish the children's reading room in the new Walnut Creek Library.

Red Devils Continue Jinx Whip Pleasant Hill 52-49

The Diablo Devils appear to have the jinx on the Pleasant Hill Rams as they copped a pair of league games from them last Tuesday afternoon.

The Diablo five won the varsity go 52-49 while the Ram Bees hit a low when the dropped a 27-15 decision.

The Ram varsity was off to a good enough start taking an 18-12 first quarter lead and kept in front 31-29 at the half.

The third quarter proved to be their downfall when they scored but five points on three free throws and a single field goal by Sid Maestre. Diablo put 12 points through the iron ring and took the lead to stay.

In fact with two and a half minutes on the clock the Rams trailed 48-38.

They put on a swing burst at the close of the game with Bill Locatelli the big gun when he hit five field goals in a row after missing 12 in a row earlier in the game.

The Devils weren't to be denied however and they hung on to notch the close 52-49 win.

The game actually was won when Diablo dominated the boards out-rebounding the Rams 37-19 almost two to one.

The Pleasant Hill team outshot the Devils from the floor as they hit on 20 for 48 while Diablo had 18 for 46.

On the free throw line the Rams average wasn't bad with 9 for 16, but they gave Diablo too many chances and they made good on 16 for 30.

Locatelli wound up with game scoring honors as he hit for 23 points while Diablo scoring was well distributed with Ron Liggett best with 14.

In the Bee game the Rams went to pot in the scoring column particularly in the fatal third quarter when they scored nary a point and went down without too much of a struggle 27-15.

Warriors Tagged By Bears Again

The Berkeley Bears and Walnut Creek Warriors took to the ice for the fifth time in intercity competition Sunday night; the result: Bears 6-Warriors 2.

The Bears have nabbed three of the five games with Walnut Creek while the warriors have won one and tied one.

Sunday night's game saw Walnut Creek's Rich Bonnington return to action after a two week stint with a hip pointer.

Berkeley's fiery Paul Mathews, back only three weeks after recovering from a concussion, received a match misconduct penalty due to a scrimmage with Warrior's Kim Farley. Penalties were dealt for high sticking and for roughing to the Bears.

Berkeley scored in the first and third periods for their six markers while Touchard scored in the second and Walker in the third for Walanut Creek's two.

Walnut Creek travels to Sacramento this Sunday for a go on the ice.

Richard Miles and Tom Leonard went up to Dodge Ridge last Saturday. They both have been declaring themselves undisputed champions on sticks and so staged a race to settle the argument.

Richard Miles was left behind in a spray of powder as Tom snow-plowed by on his new skis. Good Show!

The governor of California has declared this week as Far West Ski Week. There will be a big winter carnival at Squaw Valley and the Bay Area Ski Federation different clubs.

THERE WILL BE fun for all, so be sure to attend this weekend if possible.

Early Saturday morning Troop 226 of the Boy Scouts left the Presbyterian Church for a jaunt to Camp Bray near Pine Crest. The hep sport with the younger set now seems to be tobagganing instead of skiing. Ricky Marliave, Byron Queen, Lance Gordon and Ricky Steffan were among the boys who took advantage of the nearby runs. Some prefer old garbage-can lids and some tire tubes—"torsion air ride."

We need more activities like these trips to help keep the children of our community happy and occupied. Those that don't have anything to do tend to get in trouble.

Knights Ride High For Pair-a-Wins

The Las Lomas Knights were really on their high horses last Tuesday afternoon when they made the hometown San Ramon fans anything but happy as they licked the Wolves twice taking the varsity game comfortably 69-35 after copping the lightweight opener 56-50.

The varsity game found Coach Merrill Callow crew in fine fettle as they took a commanding 20-6 opening quarter lead and made it a 36-20 halftime advantage.

The Knights were hot at the hoop as they hit in the double digits in every quarter going for 15 in the third frame and 18 in the final period of play while holding San Ramon to 7 and 8 points in the third and fourth quarters.

A tight defense held the Wolves in check as they had but 19 shots from the floor and made good on 7. The Knights hit on 31 of 57 shots from the field.

Tom Nichols took scoring honors for Las Lomas as he hit on 8 of 9 field goal shots and had a perfect 2 for 2 from the free throw line.

Gary Scott scored 14 points to lead San Ramon.

In the Bee game the Knights were sparked in the high scoring contest when Rene Brandel came through with 18 points and Phil Marsh was close behind with 17.

Miramonte Takes Pair at Piedmont

The Miramonte Matadors five took a pair of wins over the Piedmont Highlanders in games played on the Hill City's courts last Tuesday afternoon.

The Varsity won a 39-28 while the Bees squeaked by with a 24-23 victory.

The Matadors had a big first quarter in the varsity game when they scored 15 points to go ahead 15-6.

In the second quarter the Highlanders bounced back to get a draw when each club accounted for 10 points.

The Matadors had an 8-6 edge in the third period and it was even steven in the fourth and final period as each team accounted for six points.

Coach Bob Callan used every player on the bench and nine of them scored points with Bob Hudson and John Coffey leading the pack with 7 points apiece.

Piedmont's Rod Church took game honors with 8 while George Shaw had 7.

Miramonte with John Coffey leading the way with 12 out-rebounded Piedmont 30-22.

In the field goal department Piedmont had 9 for 26 while Miramonte connected on 14 for 58.

The Highlanders had a perfect day at the free throw line with 10 for 10. Miramonte outscored them with 11 for 21.

The Bee game kept Miramonte in definite contention for title honors as they eked out the win.

They held a 13-8 halftime edge but the Piedmont team pulled up in the second half although they fell short of ever catching up.

Miramonte's Doug Hudson with 9 points turned the swing while Ed Volkwein with 7 paced the Piedmont point getters.

Mats Wallop Wolves While Hitting 55%

The Miramonte basketball team found the going to its liking last Friday night as they had a good night at the hoop, hitting 55 per cent of their follow shots, to chalk up a 76-48 win over the San Ramon Wolves.

Rams Face Eagles Tonight; Matadors Top Foothillers

The prep basketball race appears to be one of those down to the wire affairs in both divisions of the Diablo Valley League.

In the Contra Costa Section all clubs have been defeated at least twice and it's still anybody's pennant except for Pacifica who is too far down the ladder.

THE PLEASANT HILL Rams play the strong Clayton Valley five tonight at 7 in the Valley School's new gym and then return Tuesday afternoon at 3:30 for a pair of league tilts with Antioch.

In the Foothill division the Miramonte Matadors are still out in front a game with the Acalanes Dons just one game behind and the Las Lomas Knights two games out.

The Dons play the Knights at Walnut Creek tonight with the Bees opening at 7.

IT'S A CRUCIAL for both varsities as the Knights must win if they are to stay in the race while the Dons **"CAN'T"** afford to lose for the same reason.

Acalanes is in front two games in the Bee race, but the Las Lomas team has been hot the second half and could give the Don Babes nothing but trouble.

Miramonte draws the bye tonight while Piedmont rounds out the schedule playing San Ramon High at Piedmont.

SAN RAMON figures to win as the Piedmont crew is deep in the well with nary a win.

The Piedmont-San Ramon game opens with the Bees at 3:30.

Tuesday finds a round of afternoon games on tap with all Bee games getting under way at 3:30. It's the Acalanes teams at Miramonte.

This is the big one for both varsities as a win here would almost give Miramonte the title.

THE DON BEES, also hot in the title race, need this one to stay in front.

Las Lomas goes to Piedmont as heavy favorite to cop a pair of wins while San Ramon rests with a bye.

Dons, Rams Go in County Meet

Pleasant Hill, Acalanes Support Sports Savants

The Acalanes Dons and the Pleasant Hill Rams made the pre-meet dope sheets look good when they came through with wins after being made favorites prior to the Divisional Championships Saturday.

Tomorrow the first four place winners in each of the 12 weight divisions compete in the county meet which will be held at Pleasant Hill High School.

THE MEET WILL decide the county title and in addition will qualify the top two in each weight for the North Bay Section meet to be held at Hayward High February 21.

Weigh-ins are set for 8 a.m. with matches to get under way at 11 and figured to run until approximately 4:30 p.m.

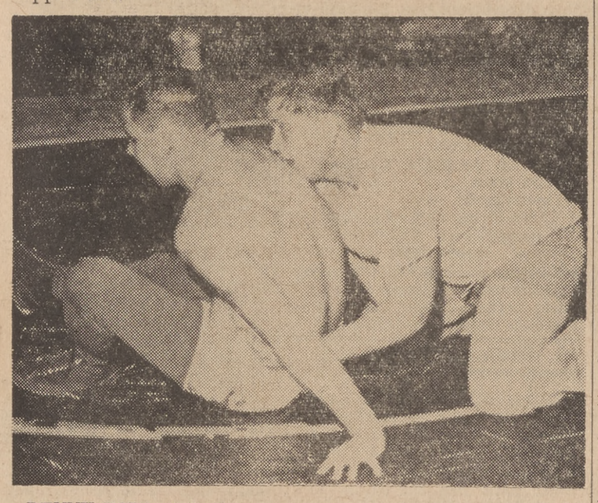
Semi-finals are set to start at 6:30 p.m. to decide third and fourth places while the finals for first and second will follow at 8 p.m.

THE DONS AND RAMS are co-favorites to cop the team title with Pacifica rated as the dark horse.

All four place winners in each Division Meet qualified for tomorrow's matches.

The Dons in winning the Foothill Division scored 155 points; Miramonte, 83; Las Lomas, 57; San Ramon, 52.

The Dons won seven individual championships with Miramonte and San Ramon taking two while Las Lomas copped one.



DENNY TOLL of Acalanes takes a hold on Buddy Boeger of Miramonte to take the decision and win the championship in the heavyweight matches for the Foothill Divison.

Sideline Slants

Of Wrestling, Weights, Sports, Grades and Us

By ERWIN MATTSON

Wrestling once again takes the spotlight as the county meet takes place at Pleasant Hill High tomorrow.

More than 90 wrestlers will take part in the event which highlight the season.

★ ★ ★ ★

ONE PROBLEM that comes up is that of making weight.

Rules provide for a weight in time and a boy must come in on or under the weight specified.

Coaches in general watch the boys weight right along and observe it as it goes up and down from week to week as well as before and after workouts.

If a boy loses two to three pounds in a normal workout the chances are that he has excess and can go down.

IF HE MAINTAINS a steady weight with little fluctuation that is probably where he should be.

★ ★ ★ ★

No boy should "starve" in order to cut down. He should diet in the sense of cutting down on bread, gravies, cakes, pies and sweets in general.

This, combined with a good training program, puts a contestant at his peak.

IN FACT, such a program produces many beneficial results.

Surveys show that the Americans for a great part are eating themselves into an early grave and that goes for yours truly. Broiled food instead of fried is generally accepted as being best.

Making weight should always be on a good, solid, common sense basis without going to excess.

Wrestling itself is one of the best body developers as all the muscles are used and under every stress and strain.

THE DIFFERENCE in an individual is noticeable even in one short season.

It is deserving of a "before and after" picture along with testimonials.

★ ★ ★ ★

In many places the mat game has really taken hold—two weeks ago over 1000 fans were on hand when Castro Valley and Hayward met in a dual meet.

Look for the game to pick up in spectator interest in the local area as more understand the fundamentals of scoring.

★ ★ ★ ★

SPEAKING OF SPORTS the spring activities open up with a bang as the season officially opens Monday as far as the Foothill division is concerned.

The Contra Costa Division has already started because of the different regulations regarding season openings.

★ ★ ★ ★

One problem which many have in the relationship between sports and grades is that certain standards must be maintained in accordance with California Interscholastic Rules, but parents go beyond that.

I will be the first to agree that certain standards must be maintained, but that each case is an individual one.

FIRST OFF, too high a goal shouldn't be set. I know one parent who has set an impossible goal for his offspring.

I also happen to know that the same parent did very poorly in school as far as grades were concerned.

Could be that a sense of guilt is resulting in his demands of high standards for his child.

(Quick, Mortimer, the couch!!)

★ ★ ★ ★

ONE SHOULD set reasonable goals and then make sure that extra curricular activities are the cause for poor grades.

Just for information sake, I checked on the grades of three boys who dropped the squad the past grading period in order to get their studies up. In not one case did the grades go up.

In fact, in one instance they stayed approximately the same and dropped in two other cases!!

Too many look upon athletics as just fun and forget that they have many values for both body and mind.

THE ONE WHO has never belonged to a team has missed much. Let's be reasonable in our demands and keep our sights on a goal within the individual's reach.

To do otherwise will result in frustration on both sides.

★ ★ ★ ★

We can't all be lawyers, doctors, scientists and mathematicians or master of language, but we can all do the best job within our potential, limited or unlimited as it may be.

Anyone who does that is a success, no matter how menial or how big the job.

Amen!

'Diablo Power Squadron' Starts Classes at Diablo

A charter was granted recently by the Governing Board of the United States Power Squadrons for a new squadron in Contra Costa County to be known as Diablo Power Squadron.

Diablo Power Squadron starts with 43 charter members, all of whom were members of Oakland Power Squaadron. The officers elected at an organizational meeting prior to the granting of the charter are:

Commander, Del M. Proctor, Lafayette; Lieutenant Commander, Embree F. Hockenbeamer, Orinda; First Lieutenant, Harry John Dutton, Lafayette; Secretary, John J. Miller, Concord; Treasurer, Warren Martens, Walnut Creek.

The United States Power Squadrons is a national organization dedicated to promoting safe boating and teaching safety afloat. At the end of November 1958, there were 25 Districts and 259 Squadrons with a total of 42,251 members. Diablo Power Squadron is the fourth unit in the San Francisco Bay Area.

The purpose of the Power Squadron is best expressed by the following excerpt from the constitution of the United States Power Squadrons.

"The objects of the United States Power Squadrons shall be to encourage and establish a high standard of skill in the handling of yachts; to encourage the study of the science of navigation; to cooperate with the agencies of the United States Government charged with the enforcement of laws and regulations relating to navigation; and to stimulate interest in activities which tend to the upbuilding of our Navy, Coast Guard and Merchant Marine."

Power Squadrons offer a free basic course in Piloting which is open to the public. For Squadron members, advanced courses are offered in Seamanship, Advanced Piloting, Junior Navigation and Navigation. Additional elective courses for members include, Sail, Weather and Engine Maintenance.

Diablo Power Squadron started its first basic course in Piloting at Diablo Valley College February 5.

Power Squadron members and those qualified for membership in a Power Squadron, who are residents of Contra Costa County and the Delta Area, may contact any officer of Diablo Power Squadron for information on affiliation with this unit.

Miramonte Impales Armor 47-44

The Miramonte Matadors were off to a flying start Tuesday afternoon when they chalked up a 14-4 first quarter advantage over the visiting Las Lomas Knights and closed to win it 47-44.

It's good that the Mats started fast because the Knights closed fast and soon tied it up 44 all.

HUSTLING BILL Houston, the Matadors' fiery southpaw, sparked the Matadors—particularly in the opening frame when he hit five field goals in a row.

The Orinda quint had a safe 23-11 half time lead only to have the Knights come out on a scoring spree of their own in the third canto.

It was a ball stealing go and the Knights picked up a fast ten markers as they outscored Miramonte 20-9.

CLARK RANSOME potted seven with Bob Gomez dumping in the rest.

Floyd Blaney left the game with a sprained ankle and Bob Hudson went out on fouls to weaken the Miramonte attack.

In the Bee game, the Las Lomas Littlemen went on a rampage to notch a 53-32 win.

The Knights had a 35-15 lead at the end of the third quarter and while Miramonte scored 17 points in a torrid fourth stanza, the Knight crew went them one better by netting 18.

Acalanes Lubed; Slips by Wolves In Twin Affair

The Acalanes varsity hardwood club scored a pair of league wins Tuesday afternoon in Danville when the varsity upset the Wolves of San Ramon 51-42 while the Don Bees took the nod 39-35.

In the varsity game, Acalanes had a 12-8 first quarter advantage and were ahead 24-20 at the half.

THE DON MACHINE got a lube job by Coach Dan Glines at the half as they outscored the home club 21-8 in the third stanza with reserves taking over from there on in.

Acalanes had 21 field goals and nine points from the free throw line.

San Ramon accounted for 26 points on 13 field goals plus 16 points on charity tosses for their total of 42 points.

Donna DeVarona Makes 'BIG SPLASH' As She Busts Swimming Records

Donna DeVarona, a lass of 11, is making a big splash in the swimming world as she wallops record after record and brings home top awards and trophies galore.

Swimming under the flag of the Berkeley YMCA last week in a meet at the Alameda Naval Air Station, she took home the all around trophy award after setting three national marks for her age.

THE RECORDS came in the 100 yards free style with a time of 1:03.9 breaking the old mark of 1:04.1 set by Patty Ruuska.

Another mark went by the boards when she stopped the clocks at :33 in the 50 yard backstroke breaking the time of :33.6 held by Melanie Flored.

She set a 50 yard free style Pacific Association record of :28.8 with the old time of :29 held by Miss Ruuska.

IN ADDITION, she brought home medals when she pulled her leg of the 200 yard individual medley at 2:39.3 and the 50 yard butterfly in :31.6.

Donna resides with her parents, Mr. and Mrs. Dave DeVarona at 3404 Hall Lane.

She has a brother, Dave, who is a freshman at Acalanes.

Valley Art Center Plans Expanded Program for '59

At the first meeting of the year of the Valley Art Center, held January 20 at Vallecito school, Lafayette, plans were laid for expanded activities during the coming year. Emphasis will be on a wider range of programs for the members.

Mr. and Mrs. Richard Ward of Lafayette will again head the Art Center as co-presidents.

Announcement was made of a new schedule of classes to begin soon in mosaics, ceramics and painting. The schedule is as follows:

MOSAICS: beginning February 24, classes in mosaics will be held in Orinda, Lafayette and Walnut Creek.

The fee in most cases will be $18 for six classes, plus $4 laboratory fee.

In Walnut Creek, Mrs. Ruth Howard, 2385 Walnut Boulevard, is offering classes from 10 a.m. to 12 noon. The series of lessons, at $16 plus laboratory fee, will be held each Tuesday and Wednesday, beginning February 24.

Also in Walnut Creek, Mrs. Eleanor Condon of 110 Richard Lane is conducting similar classes, beginning February 24, from 10 a.m. to 12 noon. The fee is $18, plus $4 laboratory.

In Lafayette, classes will be held at the home of Mrs. Mildred Simon, 4141 Los Arabis, beginning March 4, from 9 a.m. to 12 noon.

ON MARCH 3, Mrs. Simon also will conduct an advanced workshop for experimental mosaics.

In Orinda, Mrs. Harriet Ainsworth, 73 La Questa, will begin a series of classes, March 4, from 10 a.m. to 12 noon.

Ceramics: Mrs. Eleanor Condon, 110 Richard Lane, Walnut Creek, will conduct the one series of ceramic classes scheduled at the present time. There will be eight two-hour sessions in wheel work, with a fee of $18.50. Starting date will be announced soon.

PAINTING: A series of eight classes will begin February 19, from 10 a.m. to 12 noon, at the Orchard Nursery, Lafayette. Contact Mrs. June Martsolf for information. The instructor will be Syd Fossum, of San Francisco, who has studied at Northern State Teachers College, S.D., Minneapolis School of Art and Universified Michoacana, Morelia, Mexico.

Fossum has an extensive teaching record at such art centers as Washington University, Drake University, University of Colorado and Patri Art School, San Francisco.

Local Students Achieve Honors

More than 120 freshman students from the San Francisco Bay Area were admitted to the University of California, Berkeley, this Fall under the "Honors at Entrance" program designed to recognize superior achievement.

The group is among some 375 freshmen at Berkeley who received the distinction, and among a total of more than 645 entering freshmen on all campuses of the University of California.

The Honors at Entrance awards, in the form of certificates, are given to students with outstanding high school records in anticipation of distinguished performance in college. Approximately the top ten to fifteen per cent of entering freshmen qualify. The program is a development of the 1955 Tenth All-University Faculty Conference and is part of a coordinated effort by a number of West coast colleges and universities.

The Director of Admissions is responsible for determining eligibility of entering freshmen for the recently-inaugurated distinctions. The dozen students from this area who were so honored are:

Hans Altorfer, Troy Dean Beretta, Michael James Halloran, Avery Christine Larsen, Lois Corinne Larson, Anna Teresa Oldano, Louis Huggins Smith, Alice Frances Woolf of Lafayette.

Robert Chester Cole, Sandra Louise Shields, Nancy Paula Soares of Walnut Creek and Jay Stuart McCoy of Concord.

Win $25, and Satisfy the Desire to Reward Courtesy!

Would you like to win $25 in a couple of minutes, and satisfy a secret desire at the same time? Here's how—

The individual welcome and attention which each Broadway Shopping Center customer receives has always been legendary, and next weekend it will be recognized in the "Broadway Courtesy Days."

Hasn't a transaction in Broadway, assisted by a polite staff helper, left you with a warm feeling—the feeling that he or she was really interested in seeing that you were properly served?

HAVEN'T YOU often wished to express your thanks, perhaps by telling the store owner, but never got around to it?

Well, now is your chance!

All you have to do is drop into any of Broadway's participating stores, pick up an entry blank and designate the most courteous salesman or saleswoman you have known. Dash off 25 words or less telling why you have chosen as you have, and drop the entry blank in the container.

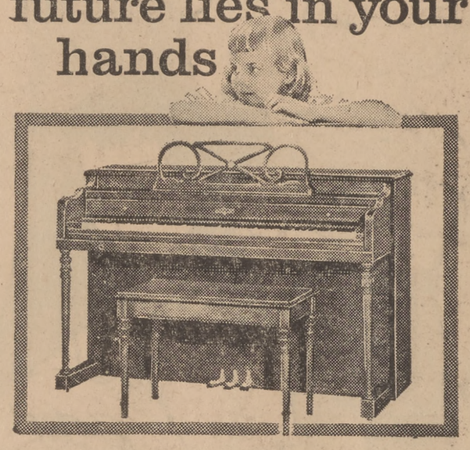
THE BROADWAY Courtesy Days will begin tomorrow and run through Friday and Saturday.

One hundred dollars will go to the customers—$25 to each of the four winners. Another $100 will go to the employees—$25 to each named by the winning customer.

The judging will be performed by the merchandising staff members of the Diablo Valley College. Their decisions will be final.

This is Broadway's way of saying "thank you" to the employees which are, in the customers view, doing their job

Your children's future lies in your hands



If you wish to guide them wisely and help them choose activities and interests that will reward them all of their lives, you will put music high on the list. Sherman, Clay's rental-purchase plans have helped thousands of parents to invest in the music so important for their children.

A new piano for as little as $25 down and only $3.95 a week*

Sherman, Clay pays for half the weekly lessons for 6 months with the teacher of your choice

For example, the new 88-note Cable-Nelson piano illustrated above may be yours on this plan for the $25 down and $3.95 a week (*payable monthly). Any of these other famous makes, exclusive with Sherman, Clay, are also available on this lesson-purchase plan.

Steinway, Chickering, Steck and Everett

Payments will vary, depending on the price of the instrument you select.

Here's How Needy Kids Got Dolls for Christmas!

By MAE WATKINS

"Many hands make light work." In dolly dressing for needy children in Contra Costa County today, that method applied is as effective as in pioneer times when the old adage was quoted often, according to members of Dollies, Inc. who worked during the 1958 Christmas season.

Some 220 dolls were distributed between December 16 and 23 to the following agencies who made individual presentations:

Christmas Bureau — 85 dolls; Pt. Chicago Salvation Army—11; Juvenile Hall — 50; Mt. Diablo Therapy Center — 12; Oak Knoll Hospital through Margaret Bainbridge—10; private sources—6.

FOR THE FIRST year, Central Contra Costa County had a surplus to send to an outside area of acute need.

The American Friends society in Visalia (through Georgia Busch, Lafayette) received 46 dolls.

A letter from them signed by Bard McAllister, Farm Labor Secretary reads in part: "The three boxes of dolls arrived in excellent condition. I took them to the Linnell Farm Labor Supply Center for distribution. . . . Each year there is a Christmas party in the large community center, for all of the children living in the center.

"It is a gala affair for 300 children and for many it is the only Christmas they know.

"The 50 dolls were distributed on Christmas Day to children who had no Christmas in their homes. The dolls made a tremendous impression," he said.

JUVENILE HALL could hardly believe when told they would get 50 dolls. Their first question was, "Where did they come from?"

Dollies, Inc., first organized in 1955 for the purpose of providing dolls at Christmas time to needy children of Contra Costa County, has now distributed 420 dolls, at a cost to Christmas Bureau of $22.50.

The move to obtain dolls the past season was spearheaded by Donna Planz, executive director, Volunteer Bureau Contra Costa County, and the Diablo Valley Girl Scouts led by Doris Fernsten, vice president co-ordinating field committees, and workers helping Dollies, Inc.

The dolls, naturally, were given by children of the County and to them and their parents is the first gratitude of the 220 little recipients.

CONNIE BROODING, chairman of the Christmas Bureau, with her staff, and Joan Favors, publicity, handled distribution for the major agency involved.

Other organizations and individuals which went all-out assisting are Senior Citizens (men and women) with Mae Duncan, sponsor, and Marie Kruse, vice-president; Women's Societies of Lafayette Community Methodist Church (Juanita Haskell, president) and Lafayette - Orinda Presbyterian Church (doll work promoters: Marge Evans and Merle Tobias).

Rainbow Girls of Pleasant Hill (Sharon Crowley and Wanda Coggins, worthy advisers); P.A.N. Club of Walnut Creek (Mrs. Robert Olcott); Lafayette Women's Club (Dorothy Mutnick, president and Marie Heckler, philanthropic chairman).

Orinda Women's Club, Lorrie Patterson, prexy, and Pat Stephens, chairman of philanthropy.

"Hats off to the hard workers who contrived a Merry Christmas for 220 little girls. Take a bow, Good Citizens, all!"

Love Makes the World Go 'Round -- So Does Courtesy!

In this hustle, bustle world, it is often difficult to find people who remember and practice consistently the tried-and-true rules of courtesy.

It's not easy to be courteous at all times, but courtesy is a policy not only of the Broadway Shopping Center but also just about each and every man and woman who works in Broadway.

Sometimes even the best-intentioned people let "frazzled" nerves show, but then you and I know others who are always able to avoid unburdening their "out-of-sorts" feelings on others.

THOSE PEOPLE often don't receive the full measure of credit due them.

Courtesy is an accomplishment of civilized man, and his other achievements very often depend on how well he can express himself, and how well he can work with others—i.e., the courteousness and manners which he has cultivated.

Those who have mastered that "Art" are those who are chosen to go farthest in their field, generally. They know how to get things done, avoiding unpleasant circumstances and fostering team work.

The busy "machine" of a modern shopping center, just as any other business serving the public, is "oiled" by the soft, courteous word, and the compassion which naturally follows it.

WITHOUT IT, a business is no longer a place where a stranger can enter freely, confident that he will be received as kindly as if he had been trading there for 10 years.

Without it, the joy of our daily contacts would be gone.

Vet Law Protects Families

Since the first of the year, Veterans Service Officer W. R. Smaker pointed out today, a new section of Veterans Administration insurance law protects the mentally incompetent veteran and also protects those who have died but did not have an opportunity to apply for GI insurance

Section 722, Public Law 85-857, authorizes insurance—upon valid application—if a veteran is mentally incompetent during any part of the year following the date on which the VA established his condition as service-connected.

Application may be filed within one year after a guardian is appointed, or within one year after restoration to competency, whichever is earlier. If either occurred before January 1, 1959, application may be made until the end of the current year.

The policies will be standard National Service Life Insurance, but will be non-participating and a total disability income provision cannot be added.

For those who died but did not have an opportunity to apply for insurance, it must be shown that the veteran served after April 24, 1951, and was mentally incompetent from a service-connected disability.

The disability must have occurred at the time of release from active service, during the year following establishment of service-connection, or after release from active service in cases where connection was not established until after death. The person must have remained incompetent until his death, and died before appointment of a guardian or within one year after such appointment.

Compensation Premium Drops

Contra Costa County's premium r Workmen's Compensation insurance for 1957-58 dropped over 14 per cent, according to the invoice just received from the State Compensation Insurance Fund.

F. E. Emery, Director of Personnel, pointed out that this lower premium occurred in the face of substantial increases in employee benefits and an 11 per cent increase in the number of employees covered by the policy.

The weekly compensation benefits for temporary disability was increased by the Legislature to $50 per week, along with an increase in the schedule of payments for medical and hospital care.

The number of permanent positions in the County service increased to 2097 from the previous year's number of 1888.

In spite of the increased benefits and greater coverage the County's total insurance premium dropped $15,366.

Grayson L. Rogers, Field Representative of the State Compensation Insurance Fund, in discussing the reduced premium with Harold G. Baldwin, County Training and Safety Officer, commented on low rates.

CD Evacuation is NOT 'Stupid' Says Perry

Civil defense mass evacuation will be virtually impossible if warning does not come before the enemy's missiles and weapons are on the way, but it will be feasible and necessary if there is an alert at least an hour or more in advance.

And it is quite possible that there would be sufficient warning, County Civil Defense and Disaster Director Will H. Perry Jr., said last week in a newsletter.

Perry said that the hope that there will be sufficient warning, and added that plans must be made for both possibilities.

IF THERE is warning of less than an hour in advance, the signal will be "Take Cover" and residents will be asked to take the precautions as outlined in Civil Defense instructions.

With more than an hour in which to operate, the CD officials will send out an "Alert" signal, and persons in the area generally west of Highway 21 will be ordered to move eastward to a safer area.

The procedures and routes have been planned and rehearsed in this county in previous "mock" evacuations.

IN THE NEWSLETTER, Perry spoke about public doubts concerning CD plans, as follows:

"Recently in our newspapers and magazines there have appeared a number of articles and letters to the editor which brand evacuation as impossible, and Civil Defense officials as being "stupid" when they talk in terms of evacuation to save lives.

"Are we in Civil Defense "stupid" or is it simply a matter of our not making ourselves clear to the public?

"Perhaps we in Civil Defense have a good concept in evacuation but we've kept it a deep dark secret from the very people whose lives we are trying to save by evacuation and other life saving methods.

"I WILL BE one of the first to agree that with the advent of ICBM and supersonic aircraft, the concept of six to eight hours warning time is "dead".

"Once the enemy's weapons are on the way, we will probably have only minutes of preattack warning time. I honestly hope that we will have at least a few minutes time in order that we can "duck and cover".

"It is possible that we'll have no warning. Now an evacuation that would take place during the time after enemy planes and missiles have been detected and prior to the strike would be known as a tactical evacuation.

"The objections to evacuation that have been voiced in the papers therefore apply to tactical evacuation, not necessarily to all evacuation. This writer believes as do those who write to the newspapers that tactical evacuation may be virtually impossible because of the short warning period we may have before actual attack.

"IF, HOWEVER, we receive one hour or more of preattack warning, the ALERT signal will be sounded. At the sounding of this signal the public located in the danger area, lying generally west of Highway 21 in this County, should move eastward to what we believe would be a safer area.

"The ALERT signal will be sounded **only** if we are certain that there will be one hour or more before attack. If the warning we receive indicates less than one hour remains prior to attack, the only signal you will hear will be the TAKE COVER signal.

"Even a one hour evacuation will enable us to move some of the highly dangerous westernmost part of the County eastward to a relatively safer area."

Perry also discussed the possibilities of "strategic" evacuation, of the type which would be appropriate in the event of extreme worsening of the international situation, where there would be mass evacuation to less populated areas, over a space of several weeks.

HE ADDED, "A Flood Fight Council has been formed by the County CD Office in preparation for possible winter floods.

"Several conferences have been held with the CD Director, Public Works, Flood Control, Communications and Law Enforcement to coordinate county government planning for possible flood emergencies.

"A daily weather reporting system has been established in which CD obtains weather information to relay to all departments involved.

"Representatives from Flood Control, Law Enforcement, Public Works and Civil Defense attended a one day course on Flood Fight Methods conducted by the State Department of Water Resources at Sacramento.

The County CD Office and Flood Control are preparing a booklet on ways to prepare one's home or business to combat floods.

This pamphlet will show methods and materials more efficient than the use of sand-bags to keep water from entering the building through doors, cracks or through foundation openings.

"Everyone should be prepared for possible disasters whether from floods, earthquakes, or bombs by having a 14 day emergency supply of food and water, and a 3 day survival kit ready to be carried in the car."

SIGNPOSTS to safety have been posted in Walnut Creek by the County Civil Defense and Disaster Office. They indicate the routes of evacuation, in event of enemy attack. Observer is E. O. Grace of 4415 Walnut Boulevard, Walnut Creek.

Camera Club Plans Formation of Panel

The Contra Costa Camera Club is inviting persons interested in improving their pictures and color slides to attend a meeting to be held Wednesday night at 8 at the Las Lomas High School room 503.

The interest shown in a similar meeting held in January has prompted the scheduling of a second meeting at which three of the advanced members of the club will form a panel to answer the questions and to help solve problems of persons attending.

The panel has asked that all questions be submitted in writing. This can be done at any time prior to the meeting or during the meeting.

The first part of the program will be a discussion by the panel on exposure and the exposure meter.

The second part will be the answering of questions and the third part of the program will be the analyzing of prints and slides submitted by the guests.

It is requested that no more than four prints or slides be brought in by any one person.

On the panel will be Jimmy Vale, president of the Camera Club; Cliff Smith and S. G. "Griff" Oliver.

Beginners are invited.

Lucky Stores Tells Plans for Big Expansion

An accelerated program of supermarket construction and the expansion of the firm's real estate department were announced today by J. C. Ernst, board chairman of Lucky Stores, Inc.

The supermarket chain plans to complete 26 new stores representing a capital investment of approximately $14,300,000 during the year. These stores, when completed, should increase Lucky's annual sales by more than $40 million, Ernst said.

Douglas N. Day, a Lucky Stores vice president and director, has been appointed to head the firm's expanded real estate department. Ernst explained that the company's program of vigorous expansion has made it necessary to put real estate matters under the supervision of an executive officer.

"Each of our new stores," Ernst said, "is the result of careful research on the potential growth of an area as well as public convenience and necessity.

"We are carrying out an extensive search for store locations and we will continue to make additions to our new store construction program as new sites are located and acquired," he said.

Optometric Group Meets

Mrs. William Anderson, vice president of the National Women's Auxiliary installed the new officers.

The auxiliary's new officers are Mrs. Ross Griffin of Concord, president; Mrs. Marvin Schwartz of Pleasant Hall, second vice president; Mrs. Albert Reinke of Oakland, third vice president; and Mrs. Bernard Garrett of Alameda, secretary-treasurer.

Faculty, Fathers To Vie In Cage Battle Here

Plans are underway for a mid-March Orinda Faculty versus Orinda Fathers basketball game. Proceeds from the event will go to buy uniforms for the Seventh and Eighth grade baseball team in the Orinda Recreation Baseball League, plus balls, bats and general equipment for the third and fourth grade and the fifth and sixth grade teams.

In the past, the Faculty has vied with members of the Forty Niner's Football team in an annual cage tilt. This year the faculty members have challenged the Orinda fathers to a cage battle for the benefit of the community.

Fathers who will accept the challenge and play a one night basketball stand are asked to contact Coach Don Texdahl at CL 4-5618 for more information as to practice schedules.

Frank Isola, director of Physical Education and Recreation for the Orinda Union School District, will coach the faculty members.
